ProjectBuild Data Dashboards

Whats Top 10 YouTube Watch Channels in US?

I have chosen a bubble chart to show relational values without axes. To ease visualization and to emphasizes data, I have decided to create a Top Ten, so only ten bubbles are shown. The size of the bubbles is conditioned by More Channels Watch Bigger Bubble, Smaller Spots, Less Channels Watch, and so on marvel Entertainment In red from the top views 801,205,041,574 and Looking at a brown channel warner bros we see a small bubble with a number of views .296,341,678,294To illustrate ten more channels through bubble chart N/A

What categories are the most disliked?

When you look at the bar chart you can find the most categories that got dislike in YouTube in general
Also a filter has been added through which to determine the numbers of the filter to find out the most dislike and least
Through the bar chart shows the most dark red color with the highest dislike used by the marks Notes get the entertainment highest rate of dislike of the number 7,010,445,656 and then music In the latter shows where I got less sharpness in color. N/A
